Paper No./Mail Date _____
7. ☐ Examiner's Amendment/Comment
8. ☒ Examiner's Statement of Reasons for Allowance
9. ☐ Other _____

Art Unit: 1745

Allowable Subject Matter

1. The following is a statement of reasons for the indication of allowable subject matter: The Sato reference (EP 0357025) discloses a separator that includes an upper plate "22", a lower plate "23" stacked together to form a second area between the upper plate and the lower plate wherein the second area is divided by a wave form member "21" into a fuel gas channel "34" and an oxygen containing gas channel "33" that includes a ridge protruding from the upper plate to contact the lower plate. However, Sato et al does not expressly teach a fuel gas channel and oxygen containing gas channel that are separated by a partition wherein the partition includes a ridge that is part of the first plate that protrudes from the first plate to contact the second plate.
